

# SCS 1303

The screenshot shows a web browser window displaying a GitHub repository page for 'SCS1303' by user 'Dilshan522'. The browser's address bar shows 'github.com/Dilshan522/SCS1303'. The repository page includes a header with the repository name, a search bar, and navigation links for Code, Issues, Pull requests, Actions, Projects, Wiki, Security, Insights, and Settings. Below the header, there are buttons for Pin, Unwatch (1), Fork (0), and Star (0). The main content area features two cards: 'Set up GitHub Copilot' and 'Add collaborators to this repository'. A blue box titled 'Quick setup — if you've done this kind of thing before' provides instructions for cloning the repository using HTTPS or SSH, with the URL 'https://github.com/Dilshan522/SCS1303.git'. Below this, a section titled '...or create a new repository on the command line' shows the commands: 'echo "# SCS1303" >> README.md', 'git init', and 'git add README.md'. The Windows taskbar at the bottom shows the search bar, task view button, and several application icons, along with the system clock indicating 2:51 PM on 8/8/2024.

**Set up GitHub Copilot**  
Use GitHub's AI pair programmer to autocomplete suggestions as you code.  
Get started with GitHub Copilot

**Add collaborators to this repository**  
Search for people using their GitHub username or email address.  
Invite collaborators

**Quick setup — if you've done this kind of thing before**

Set up in Desktop or HTTPS SSH `https://github.com/Dilshan522/SCS1303.git`

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a [README](#), [LICENSE](#), and [.gitignore](#).

**...or create a new repository on the command line**

```
echo "# SCS1303" >> README.md
git init
git add README.md
```
